1.UNIX
Class notes Juan Nicolas Garavito-Camargo

UNIX History:

Unix was created in the 60's

Why Using Unix

Unix is very efficient platform for working in multi-tasking and multi-user. That why almost all the Clusters and Supercomputers work with Unix.

Linux & OS:

How to start:

The first step you should do is open a Terminal or Console;

- Ubuntu: `Ctrl + Alt + t`
- Mac:
- Mint

This is place where you are going to interact with the computer using commands, command line.
